

CAT ONLY MORNINGS 08:00 - 12:00
HOBART - MONDAYS / FERNDALE - TUESDAY

COLLECTION AND DELIVERY - R138.00
COLLECTION ONLY - R69.00 / DELIVERY ONLY - R69.00

Every cat receives the following as a standard part of their grooming:

- a thorough brush out before the pet is bathed and dried, with a second brush out after the drying is completed and before the final styling takes place
- cleaning of tear stains with a veterinary tear stain cleaner
- protection of ear canals against water and noise with cotton wool plugs, followed by a cleaning of the outer ear canal with a veterinary ear cleaner
- nail trimming (unless otherwise requested)
- individual, kind, hands-on care by our groomers
- close supervision by our Spa managers

The following are provided based on owner preference and included in the fee:

- A hygiene cut
- Trimming hair around and under foot pads
- A tummy shave

If an owner requests a severely matted cat's coat to be brushed out, we will need to evaluate the coat in order to advise if this is going to be possible. Certain coat textures felt when matted and cannot be brushed out. In this case, the only option will be to shave the entire coat down and allow it to grow out again.

If the coat can be brushed out, a matted surcharge may apply, depending on the extent of the matting. Brushing out a severely matted coat takes a lot of time and skill, in order to not injure the cat, or damage the coat.

To keep a long haired cat's coat in beautiful condition, regular brushing by the owner is essential, together with a monthly professional grooming session.

To assist owners who are unable to brush out their cats weekly,
we have added a new item to our menu for cats:
the **BRUSH THOUGH WITHOUT A BATH.**

This is an ideal and cost effective option for cats that need to be brushed frequently to prevent matting but don't need to be washed every time. Also suitable for cats that get stressed during bathing and drying and only require sedation for this part of the grooming. Please discuss your cat's grooming options with us.
